CHEMICAL PHYSICS

Volume 195, number 1,2,3, 1 June 1995

Contents

Energy Transfer and Stabilization in Plants and Bacterial Photosynthetic Reaction Centers

Mixed-valence polyoxometalate clusters. I. Delocalization of electronic pairs in dodecanuclear heteropoly blues with Keggin structure
J.J. Borrás-Almenar, J.M. Clemente, E. Coronado and B.S. Tsukerblat 1

Mixed-valence polyoxometalate clusters. II. Delocalization of electronic pairs in 18-site heteropoly blues with Wells–Dawson structure
J.J. Borrás-Almenar, J.M. Clemente, E. Coronado and B.S. Tsukerblat 17

Mixed-valence polyoxometalate clusters. III. Vibronic problem for the 2-electron reduced heteropoly blue with the Keggin structure
J.J. Borrás-Almenar, J.M. Clemente, E. Coronado and B.S. Tsukerblat 29

Intraconfigurational transitions in tetrahedral d^2 ions: on the expediency of the ligand field model for transition metal ions in high-oxidations states
M. Atanasov 49

A perturbation treatment of oscillating magnetic fields in the radical pair mechanism using the Liouville equation
J.M. Canfield, R.L. Belford, P.G. Debrunner and K. Schulten 59

Formally tetravalent cerium and thorium compounds: a configuration interaction study of cerocene $Ce(C_8H_8)_2$ and thorocene $Th(C_8H_8)_2$ using energy-adjusted quasirelativistic ab initio pseudopotentials
M. Dolg, P. Fulde, H. Stoll, H. Preuss, A. Chang and R.M. Pitzer 71

Vibrational relaxation models for dilute shock heated gases
D.A. Gonzales and P.L. Varghese 83

Dielectric relaxation of binary dipolar liquids
A. Chandra 93

An MO study of nuclear quadrupolar coupling constant and nuclear shielding of the carbonyl oxygen in solid peptides with hydrogen bonds
S. Kuroki, S. Ando and I. Ando 107

A theoretical study on the ionic states, with analysis of vibrational levels of the photoelectron spectrum, of formic acid (CH_2O_2 and CD_2O_2)
K. Takeshita 117

Intensities of CH-stretching overtones in 2-butenes
D.M. Turnbull, H.G. Kjaergaard and B.R. Henry 129

On solitonic defects in hydrogen-bonded $(HF)_x$
M. Springborg 143

Accurate magnetizabilities of the isoelectronic series BeH^-, BH, and CH^+. The MCSCF-GIAO approach
K. Ruud, T. Helgaker, K.L. Bak, P. Jørgensen and J. Olsen 157

Correlation effects in core and valence photoelectron spectra of alkene molecules
G. Fronzoni, G. De Alti, P. Decleva and A. Lisini 171

0301-0104(19950615)195:1/3;1-F

Contents

(continued from page 4 of cover)

The effect of rotational excitation on the reaction $^{18}O(^3P) + {}^{16}O{}^{16}O(^3\Sigma_g^-) \rightarrow {}^{18}O{}^{16}O(^3\Sigma_g^-) + {}^{16}O(^3P)$. A comparison of quasiclassical and hemiquantal hyperspherical dynamics
M. Chajia and M. Jacon 195

Free energies and structures of hydrated cations, based on effective pair potentials
F. Floris, M. Persico, A. Tani and J. Tomasi 207

Molecular dynamics studies on the structure of methanol–water solutions of NaCl
E. Hawlicka and D. Swiatla-Wojcik 221

Reaction cross-section and product polarization in the $Ca(^1D_2) + HBr \rightarrow CaBr(A,B) + H$ reaction
M. Garay, M. Esteban, E. Verdasco and A. González Ureña 235

A test of the semiclassical Wigner method for the reaction $F + H_2 \rightarrow H + HF$
V.M. Azriel, G.D. Billing, L.Yu. Rusin and M.B. Sevryuk 243

Rate constant calculations for atom–diatom reactions involving an open shell atom and a molecule in a Π electronic state: Application to the $C(^3P) + NO(X\ ^2\Pi)$ reaction
A. Beghin, T. Stoecklin and J.C. Rayez 259

Dynamic orientation of diatomic fragments formed in the decomposition of statistical triatomic complexes. I. Semiclassical study
A. Berengolts, E.I. Dashevskaya, E.E. Nikitin and J. Troe 271

Dynamic orientation of diatomic fragments formed in the decomposition of statistical triatomic complexes. II. Classical simulation
A. Berengolts, E.I. Dashevskaya, E.E. Nikitin and J. Troe 283

Quasiclassical trajectory study of the $F + H_2$ system. Rate constants, kinetic isotope effects and energy partitioning among reaction products
E. Rosenman and A. Persky 291

The influence of deep traps for gas molecules on oxygen transport in the glass of 2-methylpentanol-2
S.V. Vasenkov, V.V. Korolev and V.A. Tolkatchev 305

H-atom abstraction from alcohols by alkyl radicals. Cooperative effects in the reactions of alkyl radicals in glassy methanol-d_3
V.L. Vyazovkin and V.A. Tolkatchev 313

NMR relaxation studies in water-alcohol mixtures: the water-rich region
R. Ludwig 329

Low-frequency motions in an alkali phosphate glass studied by ^7Li and ^{31}P NMR
B. Rufflé, S. Beaufils and J. Gallier 339

Infrared, Raman, resonance Raman spectra and lattice dynamics calculations of the solid potassium(I) nickel(II) thiophosphate compound, $KNiPS_4$
C. Sourisseau, R. Cavagnat, M. Fouassier, R. Brec and S.H. Elder 351

A Raman study of the disorder induced by polymer chains in mixed monomer–polymer crystals of the diacetylene pTS-D
S. Longeville, M. Bertault, J. Even, J.L. Fave, A. Girard and Y. Delugeard 371

Excited state absorption of 5CB (4′-*n*-pentyl-4-cyanobiphenyl) in cyclohexane
H.J. Eichler, R. Macdonald, R. Menzel and R. Sander 381

(continued on preceding page)

Contents

(continued from page 3 of cover)

Dispersive electronic energy transfer in an organically doped xerogel glass
D. L'Espérance and E.L. Chronister 387

Infrared fluorescence study of electronic-to-vibrational energy transfer in the $Br(^2P_{1/2})$–NO system
M.R. Hawks, R.O. Johnson and G.P. Perram 395

An experimental study of the valence shell photoelectron spectrum of hydrogen sulphide
P. Baltzer, L. Karlsson, M. Lundqvist, B. Wannberg, D.M.P. Holland and M.A. MacDonald 403

The concerted photodissociation of azomethane at 193 nm
T. Gejo, P. Felder and J.R. Huber 423

Hole transport in tri-*p*-tolylamine doped polymers: the role of the polymer dipole moment
P.M. Borsenberger, W.T. Gruenbaum, E.H. Magin and L.J. Sorriero 435

The dissociative ionization of C_2H_2. The C^+, C_2^+ and CH_2^+ dissociation channels. The vinylidene ion as a transient?
R. Locht and M. Davister 443

Effect of high pressure on photoionization of N,N,N′,N′-tetramethyl-*p*-phenylenediamine (TMPD) in liquid 2,2-dimethylbutane (DMB)
R. Katoh, K. Lacmann and W.F. Schmidt 457
